

Salesman Targets & Commission

Menu: Sales · **Type:** entry

Targets per salesman (month / quarter / year, all products or a product / group / company / category, qty and / or value) and commission rules; achievement and commission posting.

How to use

1. Set Targets tab: add targets.
2. Target Achievement tab (the target report): target vs actual net sales, balance, achievement %; tick and post the earned commission (once per target).
3. Bill-wise Commission tab: posted bills of the salesman (value without VAT, less returns against the bill) with the salesman's commission %; change the % or amount per bill, tick one or all and post. A bill that already got commission moves to "Commission already given" and is never offered again; cancelling the posting frees its bills.

Effect

Where	What happens
Accounts	Commission posting: Dr commission expense / Cr salesman commission payable (ledgers from the salesman master, or chosen on posting).
Stock	None.
VAT	None.
Other modules	Commission Register lists every posting (target-wise and bill-wise) and cancels it (the GL entry is reversed).

Fields on this screen

Field	What it does / where its effect goes
From	First date of the report period.
To	Last date of the report period.
Date	Date of the document. Accounts, stock, VAT month and ageing all use this date. Type it (AD or BS - switch with the AD/BS button) or pick it. A date in a closed fiscal year cannot be posted.
Show	Which rows to show (all / only differences / ...).
