

Purchase Order

Menu: Purchase · **Type:** entry

Order placed on a supplier; received later with a GRN or a direct bill.

How to use

1. Choose the date, Cash or Credit, then the vendor. Quotation / Order / GRN No. boxes right after the vendor pull pending documents (Enter opens the list).
2. Add lines: item, qty, unit, rate, discount; product-wise terms through Add / Less; document terms (VAT, freight) in the footer.
3. Save (or Save as Draft). New, Modify, Cancel, Remove and Print are on the action bar.

Effect

Where	What happens
Accounts	None.
Stock	None.
VAT	None.
Other modules	Pending order qty; additional expenses (freight, duty) can be linked to the order and reach the goods when received.

Fields on this screen

Field	What it does / where its effect goes
Date	Date of the document. Accounts, stock, VAT month and ageing all use this date. Type it (AD or BS - switch with the AD/BS button) or pick it. A date in a closed fiscal year cannot be posted.
Cash / Credit	Cash: paid / received now - the party field becomes a name (or a cash ledger) and no outstanding is created. Credit: the amount stays outstanding against the party (bill-wise, ageing, credit limit).
Vendor Sub-Ledger	Sub-ledger under the vendor ledger. The party posting carries it (sub-ledger statement / ageing).
Priority	Urgency of the document (normal / high / urgent) - for follow-up lists only.
Agent	Salesman / agent: agent-wise reports, targets and commission.
Currency	Currency of the document (Multi Currency on). Amounts are entered in it; the exchange rate converts them to NPR for accounts.
Due Date	Payment due date (Date + credit days). Ageing, overdue interest and reminders use it.
Due Days	Credit days; the due date is the document date plus these days.
Master Warehouse	Default warehouse for all lines of this document.
Goods Account	Purchase / goods account for this document when the product has none. A fixed asset or stock ledger can be chosen for capital purchases.
Goods Sub-Ledger	Sub-ledger of the goods account.
Rate Type	Which selling rate (Sr1 - Sr5) the lines use. Defaults from the customer's rate category; changing it re-rates the lines after asking.
Cost Center	Cost center (department, project, site, shed ...) every posting of this document carries: P&L by cost center, budgets.
Unit (Business Unit)	Business unit every posting carries: P&L by unit, budgets.
Area	Area of the party / sale - area-wise reports and data access.
Route	Delivery / sales route - route-wise sales, loading sheet and route plan.
Terms & Conditions	Terms printed at the bottom of the document (Remarks & Terms master).

Field	What it does / where its effect goes
PAN Number	PAN / VAT number of the party printed on the bill and used in VAT registers / IRD. Can update the master.
Quotation No.	Pull from a pending quotation of this party: its lines (pending qty only), master part (company, agent, sub-ledger ...), remarks and billing terms come into this entry. Enter on the box opens the list.
Item Code	Product code or barcode - type or scan; Enter moves on. F1 shows this customer's / supplier's rate history.
Item Name	The product. Its units, rates, accounts, VAT, batch / serial and item type come from the Product Master.
Qty	Quantity in the selected unit. Stock moves in the product's base unit (converted automatically).
Free Qty	Free (scheme) quantity: moves stock, no value.
UOM	Unit of the line (box, pcs, kg ...). Conversion to the base unit comes from Product Units / the product.
Alt Qty	Quantity in the second unit of a dual-unit product (e.g. pcs with cartons).
Rate	Rate per unit (per the rate basis). Sales: from the rate type / rate category / offer rate; purchase: last purchase rate.
Rate Basis	Whether the rate is per the primary or the secondary unit of a dual-unit product.
Gross	Qty x rate before discounts and terms.
Add / Less	Product-wise charges and discounts of the line (from its billing terms popup when Item Charges is on); the popup total shows here.
Net Amount	Gross +/- the line terms: the value of the line.
Batch	Batch / lot number (Batch System on). Stock and batch-wise costing follow it.
Serial No	Serial number of the piece (Serial Number on) - vehicles, electronics.
Exp Date	Expiry date of the batch - near-expiry alerts and stock ageing.
Warehouse	Warehouse the stock goes out of / comes into (only with Multi Warehouse on). A line can have its own warehouse.
Ref No (source doc)	The document this line was pulled from (quotation / order / challan / GRN / bill).
