

Sales Quotation

Menu: Sales · **Type:** entry

Price offer to a customer. Pending quotation lines can be pulled into a Sales Order, Challan or Bill.

How to use

1. Choose the date (AD / BS), Cash or Credit, then the customer. Quotation / Order / Challan No. boxes right after the customer pull pending documents of that customer (Enter opens the list).
2. Add lines: item code or barcode, qty, unit, rate (from the customer's rate type), discount; Add / Less opens the product-wise terms when Item Charges is on.
3. Check the footer: gross, terms (VAT, discount, freight), net amount; party address / PAN tab can update the master.
4. Save (or Save as Draft). The action bar also has New, Modify, Cancel, Remove and Print.

Effect

Where	What happens
Accounts	None - a quotation posts nothing.
Stock	None.
VAT	None.
Other modules	Its qty is "pending" until pulled forward; the Order / Challan / Bill made from it reduces the pending qty.

Fields on this screen

Field	What it does / where its effect goes
Date	Date of the document. Accounts, stock, VAT month and ageing all use this date. Type it (AD or BS - switch with the AD/BS button) or pick it. A date in a closed fiscal year cannot be posted.
Customer	The customer (ledger in Sundry Debtors). Debited with the bill total (credited on a return). PAN, address, credit limit, rate category, agent and area come from the customer master.
Warehouse	Warehouse the stock goes out of / comes into (only with Multi Warehouse on). A line can have its own warehouse.
Salesman/Agent	Salesman / agent: agent-wise reports, targets and commission.
Customer Sub-Ledger	Sub-ledger (e.g. branch or project of the customer) under the customer ledger. The party posting carries it, so sub-ledger statements and ageing show it.
Area	Area of the party / sale - area-wise reports and data access.
Route	Delivery / sales route - route-wise sales, loading sheet and route plan.
Cost Center	Cost center (department, project, site, shed ...) every posting of this document carries: P&L by cost center, budgets.
Unit	Business unit (division / brand) every posting carries: P&L by unit, budgets.
Priority	Urgency of the document (normal / high / urgent) - for follow-up lists only.
Rate Type	Which selling rate (Sr1 - Sr5) the lines use. Defaults from the customer's rate category; changing it re-rates the lines after asking.
Narration	One line description printed on the voucher and shown in the ledger. Pick a saved remark or type.
Item Code	Product code or barcode - type or scan; Enter moves on. F1 shows this customer's / supplier's rate history.
Item Name	The product. Its units, rates, accounts, VAT, batch / serial and item type come from the Product Master.
Qty	Quantity in the selected unit. Stock moves in the product's base unit (converted automatically).

Field	What it does / where its effect goes
Free Qty	Free (scheme) quantity: moves stock, no value.
UOM	Unit of the line (box, pcs, kg ...). Conversion to the base unit comes from Product Units / the product.
Alt Qty	Quantity in the second unit of a dual-unit product (e.g. pcs with cartons).
Rate	Rate per unit (per the rate basis). Sales: from the rate type / rate category / offer rate; purchase: last purchase rate.
Rate Basis	Whether the rate is per the primary or the secondary unit of a dual-unit product.
Gross	Qty x rate before discounts and terms.
Add / Less	Product-wise charges and discounts of the line (from its billing terms popup when Item Charges is on); the popup total shows here.
Net Amount	Gross +/- the line terms: the value of the line.
Batch	Batch / lot number (Batch System on). Stock and batch-wise costing follow it.
Serial No	Serial number of the piece (Serial Number on) - vehicles, electronics.
Exp Date	Expiry date of the batch - near-expiry alerts and stock ageing.
Ref No (source doc)	The document this line was pulled from (quotation / order / challan / GRN / bill).

Tips

- Use Copy on a posted quotation to make a similar one.
- Quotation Register (Universal Register) lists them with status.
