

Sales Delivery / Challan

Menu: Sales · **Type:** entry

Goods sent to the customer before the bill (delivery note / challan).

How to use

1. Choose the date (AD / BS), Cash or Credit, then the customer. Quotation / Order / Challan No. boxes right after the customer pull pending documents of that customer (Enter opens the list).
2. Add lines: item code or barcode, qty, unit, rate (from the customer's rate type), discount; Add / Less opens the product-wise terms when Item Charges is on.
3. Check the footer: gross, terms (VAT, discount, freight), net amount; party address / PAN tab can update the master.
4. Save (or Save as Draft). The action bar also has New, Modify, Cancel, Remove and Print.
5. Vehicle, driver and transport can be recorded for the challan print.

Effect

Where	What happens
Accounts	None - the bill made from it posts the sale.
Stock	Stock goes OUT on posting (warehouse / batch / serial of each line). Negative Stock control applies.
VAT	None (VAT is on the bill).
Other modules	Challan No. on the Sales Bill pulls it; those bill lines do not move stock again.

Fields on this screen

Field	What it does / where its effect goes
Date	Date of the document. Accounts, stock, VAT month and ageing all use this date. Type it (AD or BS - switch with the AD/BS button) or pick it. A date in a closed fiscal year cannot be posted.
Customer	The customer (ledger in Sundry Debtors). Debited with the bill total (credited on a return). PAN, address, credit limit, rate category, agent and area come from the customer master.
Warehouse	Warehouse the stock goes out of / comes into (only with Multi Warehouse on). A line can have its own warehouse.
Vehicle No	Vehicle carrying the goods - printed on the challan / transfer.
Salesman/Agent	Salesman / agent: agent-wise reports, targets and commission.
Customer Sub-Ledger	Sub-ledger (e.g. branch or project of the customer) under the customer ledger. The party posting carries it, so sub-ledger statements and ageing show it.
Driver Name	Driver of the vehicle.
Transport	Transporter (Transport Master).
Area	Area of the party / sale - area-wise reports and data access.
Route	Delivery / sales route - route-wise sales, loading sheet and route plan.
Cost Center	Cost center (department, project, site, shed ...) every posting of this document carries: P&L by cost center, budgets.
Unit	Business unit (division / brand) every posting carries: P&L by unit, budgets.
Narration	One line description printed on the voucher and shown in the ledger. Pick a saved remark or type.
Quotation No.	Pull from a pending quotation of this party: its lines (pending qty only), master part (company, agent, sub-ledger ...), remarks and billing terms come into this entry. Enter on the box opens the list.

Field	What it does / where its effect goes
Order No.	Pull from a pending order of this party (pending qty only). Master part, remarks and billing terms come along. The order's delivered / billed qty moves when this entry posts.
Item Code	Product code or barcode - type or scan; Enter moves on. F1 shows this customer's / supplier's rate history.
Item Name	The product. Its units, rates, accounts, VAT, batch / serial and item type come from the Product Master.
Qty	Quantity in the selected unit. Stock moves in the product's base unit (converted automatically).
Free Qty	Free (scheme) quantity: moves stock, no value.
UOM	Unit of the line (box, pcs, kg ...). Conversion to the base unit comes from Product Units / the product.
Alt Qty	Quantity in the second unit of a dual-unit product (e.g. pcs with cartons).
Rate	Rate per unit (per the rate basis). Sales: from the rate type / rate category / offer rate; purchase: last purchase rate.
Rate Basis	Whether the rate is per the primary or the secondary unit of a dual-unit product.
Gross	Qty x rate before discounts and terms.
Add / Less	Product-wise charges and discounts of the line (from its billing terms popup when Item Charges is on); the popup total shows here.
Net Amount	Gross +/- the line terms: the value of the line.
Batch	Batch / lot number (Batch System on). Stock and batch-wise costing follow it.
Serial No	Serial number of the piece (Serial Number on) - vehicles, electronics.
Exp Date	Expiry date of the batch - near-expiry alerts and stock ageing.
Ref No (source doc)	The document this line was pulled from (quotation / order / challan / GRN / bill).
