

Purchase GRN (Goods Received)

Menu: Purchase · **Type:** entry

Goods received before the supplier's bill.

How to use

1. Choose the date, Cash or Credit, then the vendor. Quotation / Order / GRN No. boxes right after the vendor pull pending documents (Enter opens the list).
2. Add lines: item, qty, unit, rate, discount; product-wise terms through Add / Less; document terms (VAT, freight) in the footer.
3. Save (or Save as Draft). New, Modify, Cancel, Remove and Print are on the action bar.
4. Enter the supplier's challan no / date.

Effect

Where	What happens
Accounts	Dr goods (purchase) account / Cr GRN Clearing (GR/IR) ledger - a provisional liability until the bill comes.
Stock	Stock comes IN at the goods value without VAT per base unit (after discount and non-VAT terms), plus landed cost of additional expenses posted against it.
VAT	None yet (VAT is taken on the bill).
Other modules	GRN Outstanding lists GRNs not yet billed; the Purchase Bill pulls it with GRN No.

Fields on this screen

Field	What it does / where its effect goes
Date	Date of the document. Accounts, stock, VAT month and ageing all use this date. Type it (AD or BS - switch with the AD/BS button) or pick it. A date in a closed fiscal year cannot be posted.
Cash / Credit	Cash: paid / received now - the party field becomes a name (or a cash ledger) and no outstanding is created. Credit: the amount stays outstanding against the party (bill-wise, ageing, credit limit).
Vendor Sub-Ledger	Sub-ledger under the vendor ledger. The party posting carries it (sub-ledger statement / ageing).
Priority	Urgency of the document (normal / high / urgent) - for follow-up lists only.
Agent	Salesman / agent: agent-wise reports, targets and commission.
Currency	Currency of the document (Multi Currency on). Amounts are entered in it; the exchange rate converts them to NPR for accounts.
Due Date	Payment due date (Date + credit days). Ageing, overdue interest and reminders use it.
Due Days	Credit days; the due date is the document date plus these days.
Master Warehouse	Default warehouse for all lines of this document.
Goods Account	Purchase / goods account for this document when the product has none. A fixed asset or stock ledger can be chosen for capital purchases.
Goods Sub-Ledger	Sub-ledger of the goods account.
Rate Type	Which selling rate (Sr1 - Sr5) the lines use. Defaults from the customer's rate category; changing it re-rates the lines after asking.
Cost Center	Cost center (department, project, site, shed ...) every posting of this document carries: P&L by cost center, budgets.
Unit (Business Unit)	Business unit every posting carries: P&L by unit, budgets.
Area	Area of the party / sale - area-wise reports and data access.
Route	Delivery / sales route - route-wise sales, loading sheet and route plan.

Field	What it does / where its effect goes
Terms & Conditions	Terms printed at the bottom of the document (Remarks & Terms master).
PAN Number	PAN / VAT number of the party printed on the bill and used in VAT registers / IRD. Can update the master.
Quotation No.	Pull from a pending quotation of this party: its lines (pending qty only), master part (company, agent, sub-ledger ...), remarks and billing terms come into this entry. Enter on the box opens the list.
Order No.	Pull from a pending order of this party (pending qty only). Master part, remarks and billing terms come along. The order's delivered / billed qty moves when this entry posts.
Item Code	Product code or barcode - type or scan; Enter moves on. F1 shows this customer's / supplier's rate history.
Item Name	The product. Its units, rates, accounts, VAT, batch / serial and item type come from the Product Master.
Qty	Quantity in the selected unit. Stock moves in the product's base unit (converted automatically).
Free Qty	Free (scheme) quantity: moves stock, no value.
UOM	Unit of the line (box, pcs, kg ...). Conversion to the base unit comes from Product Units / the product.
Alt Qty	Quantity in the second unit of a dual-unit product (e.g. pcs with cartons).
Rate	Rate per unit (per the rate basis). Sales: from the rate type / rate category / offer rate; purchase: last purchase rate.
Rate Basis	Whether the rate is per the primary or the secondary unit of a dual-unit product.
Gross	Qty x rate before discounts and terms.
Add / Less	Product-wise charges and discounts of the line (from its billing terms popup when Item Charges is on); the popup total shows here.
Net Amount	Gross +/- the line terms: the value of the line.
Batch	Batch / lot number (Batch System on). Stock and batch-wise costing follow it.
Serial No	Serial number of the piece (Serial Number on) - vehicles, electronics.
Exp Date	Expiry date of the batch - near-expiry alerts and stock ageing.
Warehouse	Warehouse the stock goes out of / comes into (only with Multi Warehouse on). A line can have its own warehouse.
Ref No (source doc)	The document this line was pulled from (quotation / order / challan / GRN / bill).
