

Purchase Additional Expense

Menu: Purchase · **Type:** entry

Freight, customs, clearing, insurance, labour ... on purchased goods - taxable or non-taxable bills of other parties, or no bill - allocated to the goods (landed cost).

How to use

1. Ref. Bill No. (required): the posted purchase bill the cost belongs to - only the bill is linked (not the order / GRN); its vendor comes in as the vendor (change it when another party is paid). Older entries linked to an Order / GRN are shown as "Linked (older entry)".
2. Product-wise Terms tab: the products of the linked document; Terms... on a product opens its terms (Billing Terms marked Purchase Additional + Product Wise) - rate % of that product's value or amount; the whole amount goes to that product's cost.
3. Bill-wise Terms tab: a fixed form with one row per bill-level term - fill the amounts that apply; each is divided over the products by the term's basis (value / qty, changeable per row). Empty rows are left out.
4. A term's ledger is fixed by the term - only its sub-ledger can be changed. "Paid to" (the counter ledger) and its sub-ledger are free; empty = the entry's vendor. Bill type (taxable / non-taxable / no bill), party bill no and VAT per row - so one entry can carry several taxable bills of different parties (each is its own bill in the VAT register).
5. Add / Refresh TDS: one TDS line per party paid - base = that party's "+" lines (only the lines whose term is marked TDS Applicable, when any is), rate from System Control (default 1.5 %). TDS is a non-additional term (not in the stock cost).
6. Totals: Prd. Additional / Non-Additional (product-wise terms), Gen. Additional / Non-Additional (bill-wise terms), Net Additional (goes to the stock cost), Net Non-Additional (VAT claimable, TDS, terms not in costing), Total and Net Total.
7. Check the per-product preview (additional, cost / unit), then Save and post.

Effect

Where	What happens
Accounts	Dr each term / expense ledger with its sub-ledger (Cr for "-" terms) / Dr VAT (claimable) / Cr the party of each line with its sub-ledger. TDS lines: Cr TDS payable.
Stock	Posted: the allocated amount is added to the cost of the stock receipt of each linked line (landed cost); cancelled: taken out again. Terms not "Include In Costing" stay out of the stock cost.
VAT	Taxable lines go to the Purchase VAT register as "Purchase Additional Bill".
Other modules	Purchase Account and Purchase vs Stock reconciliation show it separately; TDS register; bills can later be taken in a TDS journal.

Fields on this screen

Field	What it does / where its effect goes
Date	Date of the document. Accounts, stock, VAT month and ageing all use this date. Type it (AD or BS - switch with the AD/BS button) or pick it. A date in a closed fiscal year cannot be posted.
Account Posting	Yes: the expense is posted to the ledgers. No: only the landed cost moves (e.g. already booked elsewhere).
Invoice Type	Cash or credit, as Cash / Credit: decides whether the document leaves an outstanding against the party.
Vendor Sub-Ledger	Sub-ledger under the vendor ledger. The party posting carries it (sub-ledger statement / ageing).
Agent	Salesman / agent: agent-wise reports, targets and commission.

Field	What it does / where its effect goes
Currency	Currency of the document (Multi Currency on). Amounts are entered in it; the exchange rate converts them to NPR for accounts.
Priority	Urgency of the document (normal / high / urgent) - for follow-up lists only.
Party Bill No	The supplier's own bill number (VAT invoice no). It goes to the purchase VAT register; the same number cannot be entered twice for one supplier.
Party Bill Date	Date on the supplier's bill - VAT register and Annex 13.
Cost Center	Cost center (department, project, site, shed ...) every posting of this document carries: P&L by cost center, budgets.
Unit	Business unit (division / brand) every posting carries: P&L by unit, budgets.
Remarks	Remarks printed on the document; pick a saved remark (Remarks master) or type your own.
Narration	One line description printed on the voucher and shown in the ledger. Pick a saved remark or type.
