

# Ledger Opening Balance

**Menu:** Masters · **Type:** master

Opening balances of ledgers on the first day of the opening fiscal year (with bill-wise opening bills).

## How to use

1. Enter Dr / Cr per ledger; party ledgers can have opening bills for bill-wise ageing.

## Effect

| Where    | What happens                                                      |
|----------|-------------------------------------------------------------------|
| Accounts | Opening balances of the Trial Balance (Dr must equal Cr overall). |
| Stock    | None.                                                             |
| VAT      | None.                                                             |
